Baumans is Arkansas's premier men's clothing store. We offer a full range of styles and accessories, a custom made-to-measure shop and many services, including closet consultations, personal shopping, tailoring and pressing. We are proud of the world class brands we specialize in.

Baumans offers not only off the rack clothing, but has an in-house Made-to-Measure department for the ultimate fit. Setting it apart from most men's clothing stores is the excellent tailor shop boasting a Master Tailor and experienced personnel. This store is more than a place to shop...it is an experience. Come see for yourselves.

Since 1919, Baumans has dressed presidents, CEOs, governors, senators and other celebrities. With a staff of five and an in-house master tailor, Baumans' tailoring truly sets them apart. Their full service, made-to-measure offering remains a focal point for the business today.

The main location at Pavilion in the Park houses the tailor shop, general offices, receiving and 5,000 square feet of an entire selection of the Baumans collection, along with Arkansas' most complete men's

specialty shoe department. The tailoring staff has more than 100 years of combined experience.

The newer Capital Hotel shop is a service center for Downtown Little Rock customers offering a complete shirt and neckwear collection, essentials for the male traveler (socks, underwear, and other items) and an array of specialty goods (sport shirts, fragrances, shaving products). It also serves as a great billboard for the main location at Pavilion in the Park.
